Environment -THE AIR WE RESPIRE					
	Environment and climate	The County Administrative Board	Regeringsgatan 66 Telephone: 010-223 10 00	http://www.lansstyrelsen.se/Stockholm/En/miljo-och-klimat/Pages/default.aspx	The County Administrative Board has an important role in environmental and climate initiatives in the county. We coordinate environmental efforts, provide information and disseminate knowledge, work with environmental goals and environmental monitoring, water management, as well as climate and energy issues. Furthermore, we issue rulings with regard to permits and conduct the supervision of activities which have an impact on the environment.

	Clean Air	Naturvårdsverket		http://www.swedishepa.se/Environmental-objectives-and-cooperation/Swedish-environmental-objectives/The-national-environmental-objectives/Clean-Air/	"The air must be clean enough not to represent a risk to human health or to animals, plants or cultural assets."
	Air	ivl, svenska miljöinstitutet	Box 210 60, !00 31 Stockholm, SWEDEN	https://www.ivl.se/english/startpage/pages/focus-areas/air.html	Over the past 20 years Sweden and Europe have done much to improve air quality. In particular, nitrogen and sulphur oxide emissions have diminished significantly, and this has averted a number of environmental and health problems.
THE GARDEN					
	Make your everyday life more green	NGO Hemmaodlat	Hemmaodlat, Augustenborgstorget 21447, Malmö 0709 - 61 62 66	http://www.hemmaodlat.se/	We have our activities in Augustenborg ecocenter where we have built a culture center in the middle of the ecovillage. Here we educate everyone who wants to grow vegetables at home. We do this primarily through study circles but also through weekend courses.
	Establishing of ecological agriculture	Swedish Board of Agriculture	customer service: +46 (0)771-223 223	http://www.jordbruksverket.se/	Ecological Agriculture: Against pests and weeds, organic farming primarily uses different prevention methods. In the field of plant nutrition, manure, nitrogen-fixing legumes and other organic matter are used. Cultivation and livestock must be in balance.

	Bees	Biodlarna, Sveriges biolares riksförbund	Phone: +46 142482000 Email: sbr@biodlarna.se	http://www.biodlarna.se/	The Swedish Board of Agriculture published a report in 2001 on the condition of the beekeeping industry that summarizes the location of beekeeping in society at the end of the 1990s. The report fully deals with honey consumption and production, as well as the significance of beekeeping for pollination and conservation of biodiversity. Although the possibilities for rural development are affected, unfortunately, beekeeping as a leisure job and hobby comes in the background, despite the fact that thousands of men and women devote themselves to bees and beekeeping for that reason.
	Biodiversity in the garden	New Centre for Biological Diversity	Alexandre Antonelli, professor at the Department of Biology and Environmental Sciences, University of Gothenburg, scientific curator at Gothenburg Botanical Garden and member of Young Academy of Sweden. Email: alexandre.antonelli@bioenv. gu.se Tel: +46 (0)703 98 95 70	http://bioenv.gu.se/english/current/news/newsdetail/?languageId=100001&contentId=1418519&disableRedirect=true&returnUrl=http%3A%2F%2Fbioenv.gu.se%2FAktuellt%2FNyheter%2Ffulltext%2F%2Fnytt-centrum-for-biologisk-mangfald.cid1418519	The number of species inhabiting Earth is steadily declining, both on land and in our seas. This development needs to be stopped, but doing so is not an easy task. "That's why a new centre of expertise and research is opening at the turn of the year, the Gothenburg Global Biodiversity Centre," says Professor Alexandre Antonelli, who will serve as director of the centre.

	Biodiversity in the garden	Swedish Biodiversity Centre, CBM	Sveriges lantbruksuniversitet Swedish University of Agricultural Sciences	https://www.slu.se/en/Collaborative-Centres-and-Projects/swedish-biodiversity-centre1/	CBM provides new and innovative perspectives on the importance of biodiversity for people and communities.
	Gardening	Jordbruksverket	0771-223 223	http://www.jordbruksverket.se/amnesomraden/odling.4.5abb9acc11c89b20e9e8000374.html	Here you will find information about plant nutrition, plant protection and more that will help you to succeed with your crop cultivation and information for growers of fish or mussels. We work with advice within the EU Rural Program.
INTERVENTION					
	the Swedish Board of Agriculture	Jordbruksverket	0771-223 223	http://www.jordbruksverket.se/swedishboardofagriculture.4.6621c2fb1231eb917e680002462.html	The Board of Agriculture is the Government's expert authority in matters of agri-food policy, and is responsible for the agricultural and horticultural sectors.
	The WWF in Sweden	Världsnaturfonden	08-624 74 00	http://www.wwf.se/header/english/1129071-about-wwf	Världsnaturfonden WWF was founded in 1971 with the purpose of contributing financially to the international operations of WWF as well as setting aside funds for Swedish research, education and practical nature conservation work.
