

Guide for seniors #2 - How to use SIRI- your digital assistant - www.mobileducation.eu

Siri does more than ever. Even before you ask. Just start by saying “Hi Siri”.

Calls and Texts

Siri can help you to communicate and stay connected without even lifting a finger. Siri can make calls or send texts for you whether you are driving, have your hands full, or are simply on the go.

1. *“Hey Siri, call mom on speaker”* (Siri can remind you to make the calls that matter)
2. *“Read my last message”* or *“Text Donna I am on the way”*
3. *“Message Terry I am there in 30 minutes on WhatsApp”*

Everyday tasks

Siri is a faster and easier way to do all kinds of useful things. Set alarms, timers, and reminders. Get directions. Preview your calendar. Siri can do it all without you having to pick up a device.

1. *“Hey Siri, wake me up at 7 am”*
2. *“Remind me to pick up the dry cleaning when I leave work”*
3. *“Hey Siri, set a timer for 20 minutes”*

Music

Apple music and Siri work together beautifully which means you can ask Siri to find a new song you want to listen to or to put on your favorite album.

1. *“Hey Siri, play me something I would like”*
2. *“Play me some 90s hiphop”*
3. *“Play the latest Beach House”*

Smart Home

Siri can help you to run your smart home. Now you can control your smart appliances, check their status, or even do a bunch of things at once – using just your voice. In the Home app, for example you can create a command called “I’m home” and that opens the garage, unlocks the front door and turns on the lights.

“I am home”

Siri can be your personal digital assistant and your best friend - if you want!
